This Cookery Book of nearly 300 pages is FREE to you

Here's a great big Cookery Book of nearly 300 pages—finely printed, beautifully illustrated—cramped full of splendid time tested recipes—recipes that are economical and practical.

The Highlander Cookery Book is the standard reference work of tens of thousands of New Zealand women. Indeed so valuable is it that it is sold at a good figure by the Red Cross Societies of the Dominion. But there's an absolutely free copy of this splendid work available for you. Just send your name and address and the book will be sent post free by the next mail.

In addition to good recipes in all branches of cooking it tells about Highlander Milk—the Condensed Milk that sets the standard in New Zealand and throughout the Pacific.

Send to-day while there's still a copy available for you—address, "Highlander," Dept. "A," Fred L. Watson, Ltd., Agents, Honolulu.

Armour's STAR Hams and Bacon

A SELECTION of the best raw product from the swine number that pass through Armour's hands, and then processing by the unequalled Armour mild Star cure—that is the secret of quality in these two Oval Label Products. In Star Ham the extra fine flavor imparted by the cure is conserved and intensified by the Stockinet Covering—(an exclusive Armour feature, patent applied for). Star Bacon, the National Breakfast, is also unequalled as a side dish. It makes chicken, veal and beef steak "go further" and taste better, or, boiled with vegetables is a well balanced dish.

COMMERCIAL NEWS

CABLE INDICATES UNCERTAINTY IN SUGAR SITUATION

Uncertainty is indicated as the underlying state of the sugar market by the weekly cable received by Alexander & Baldwin from the New York office. This cable, however, was compiled and transmitted Saturday evening and may not exactly reflect the actions of the buyers and sellers in New York today, as a result of the news that an agreement has been reached whereby the food control board and the sugar beet raisers have decided upon action to reduce the price of sugar one and a half cents. The weekly cable reads as follows: "Market uncertain but fairly steady. Both buyers and sellers waiting developments. Sellers not forcing sales. Buyers willing to pay 7.40 August first half September."

This last sentence is interpreted to mean that 7.40 was an acceptable figure for the buyers for deliveries in August and half of September. Their hesitancy to pay more than the present price later than the middle of September is taken as an indication that they expected government control and a fixed maximum price. The reference to buyers and sellers awaiting developments is also taken to indicate the same thing.

UNCLAIMED GOODS SOLD AT AUCTION BRING LARGE SUM

The customary gambling rest of the past was absent from the yearly sale of unclaimed goods at the warehouse of the customs service yesterday where 50 or 60 Orientals carried on the bidding for the goods which have accumulated during the past twelve months. Previously the bidding was always "blind," as the boxes and packages were not opened until after the sale was closed, but now an examination of the goods is permitted.

As one of the customs men explained it, "under the present plan neither the government nor the buyers get 'gipped.'"

The bidding was spirited, under the urging of the customs clerks, J. K. Brown and J. W. Short, but the amounts bid were tediously small. Some of the buyers secured some valuable caps, both wool and cotton, for a very low price. The balance of the goods were largely vegetable preparations from the Orient. Several hundred dollars were realized from the sale.

On Labor Day, September 3, the Bishop museum will be open to the public as usual.

ENGELS REPORTS GAIN IN JULY IN ITS OUTPUT

Bishop & Co. have received a report on the production of the Engels Copper Mining Co. which will be of interest to the many shareholders of that company in Hawaii. The increase in copper output for July is given as 16.3 per cent over that of July of last year, although the production fell off somewhat on account of interruption of power caused by electrical storms.

The letter of the manager of the company, Elmer E. Paxton, is given below, in part:

"The output for August was so far up to the average in three or four months.

The new Hardinge mill has just been put into operation, same having been delayed a long time in transit.

"The Great Western Power Co. expects to give us power on the new line by the end of this week.

"All construction work is progressing satisfactorily, practically all of the machinery for the new equipment having arrived."

The results for the month of July are reported as follows:

Tons ore milled, 12,587; pounds concentrates produced, 1,350,496; pounds cu. in concentrates, 4,521,147; pounds cu. in crude ore shipped (estimated 40,000), 492,147; recovery per cent cu., 74.47; concentrates per cent cu., 33.48; increase in copper output, 16.3 per cent.
